

FEATURE	L	P	E
General			
Print-only and network versions available			•
Number of connected printers	1	1 or 3	Unlimited
Windows Printers	None	Default	Unlimited
WYSIWYG label design	•	•	•
Full UNICODE support	•	•	•
Multi-lingual user interface (24 languages)	•	•	•
Wizard-based user interface (New Label, GS1, HIBC, Database, and more)	•	•	•
Drag-and-drop label design	•	•	•
Password protection on documents/labels			•
Lock/unlock objects			•
Live preview of graphics and labels	•	•	•
Hidden (unprintable) objects		•	•
Group and ungroup objects	•	•	•
Automatic resizing of objects (Fit to Frame)			•
Color text and printing	•	•	•
Reversed text (foreground/background)	•	•	•
Native (printer) and graphic bar codes	•	•	•
Over 100 industry-standard bar codes	•	•	(Circular)
Add background pictures to labels and documents			•
OLE objects for insertion of external objects or documents	•	•	•
TextArt (allows curved and rotated text)	•	•	•
Rich Text Fields			•
Table Lookup		•	•
Display multiple records on the same label (List field)			•
Compliance label templates (Military DoD, Healthcare, Shipping, and more)	•	•	•
Multi-tabbed label design	•	•	•
Copy and paste objects between multiple labels	•	•	•
OCX Field			•
Object Order	•	•	•
Tools			
Printer code converter		•	•
Printing Logfile (label name, printer, user, and more)			•
Directly modify printer code (Job Modifier)	•	•	•
Download fonts to thermal printers (Font Downloader)	•	•	•
Define user access rights (User Manager)			•
Retrieve data from serial devices (COMet)		•	•
Export label as a graphic for use in other applications			•
Import labels from FTP			•
Import printer code from other applications	•	•	•
RFID tag support			•
Label Comparison Tool			•
True Type Font Substitution			•

TEKLYNX®

CODESOFT® V. 9

L Lite

P Pro

E Enterprise

Supports:

Windows® XP, Server 2003 Standard, Enterprise or Datacenter edition, Vista, Server 2008, and Windows 7

FEATURE	L	P	E
Add-ons			
Command File Interpreter (CFI) - Automated printing		•	•
Printer Object Files (POF) - Export printer code			•
Form Viewer - View custom-made forms for data entry/bar code scan and print			•
Form Designer - Create custom interface			•
Programmability			
ActiveX Basic		•	•
Command line, ActiveX version 1 and 2, .NET Wrapper			•
Database Management			
Database wizard	•	•	•
Database Manager with batch printing options	•	•	•
OLE DB / ODBC / ASCII database connectivity	•	•	•
Access multiple tables simultaneously			•
Filters on tables	•	•	•
SQL mode/query builder (advanced users)			•
Create/edit query	•	•	•
Save query			•
Grid view/print	•	•	•
Data Source Management			
Flexible date/time stamping (real time and offset)	•	•	•
Select value from custom list (Pick List)	•	•	•
Variable graphic images	•	•	•
Shared variables on multiple labels	•	•	•
Control the display of variable data (Output Mask)	•	•	•
Counting bases (6 bases and custom)	(Limited)	(Limited)	(All)
Advanced counters (linked, shared, rollover)			•
Accumulate value	•	•	•
Combine data or multiple fields in object	•	•	•
Form Management			
Customizable for errorproof data entry	•	•	•
Require specific input data (Input Mask)	•	•	•
Define minimum input length	•	•	•
Automatic prompt	•	•	•
Cross Compatibility			
Integration with SAP, LIMS, and other ERP systems (SENTINEL)			•
Reprint & version control for audit compliance (LABEL ARCHIVE)			•
Print from a mobile device (IDEAM)			•
